

Our Philosophy

Family Partnership is here to insure that your voice is heard as the parent/caregiver and that you feel empowered and respected.

Family Partners works closely with Children's Mental Health to include parents as equal partners in all the mental health services their child receives. We support you to build effective partnerships with service providers and helping agencies. We honor the strengths of each family member.

Get Started With Us

Your child's therapist or coordinator can refer you to Family Partnership or you can call us directly

Family Partnership Program

A program of
Community Connection

About Our Program

Family Partnership is a program of Community Connection. We are a small team of parent professionals who have personal experience working with Children's Mental Health. We serve parents and caregivers as peer counselors, liaisons, and advocates.

If your child has Medi-Cal and is receiving mental health, probation, substance abuse, or specialized services, we can help you.

Our services are free and confidential.

Services We Provide

Family Partners provide a variety of services tailored to the strengths and needs of each family. Each parent/caregiver will be assigned a Family Partner who may provide one or more of the following services:

1. **Information and connection to community resources**
2. **Access to resource materials through our lending library**

3. **Individual Peer Support Sessions** **Focusing On:**

- Parenting and communication skills
- Self care and coping skills
- Support with your child's educational needs
- Understanding your child's mental health diagnosis and behavioral challenges.
- Guidance and support in working effectively with service providers and navigating services.
